leadership in the eastern states, amounting to open hostility between | tion on April 20. campaigns, is given by William J. Bryan as the reason for the succession of democratic defeats.

Mr. Bryan discusses the question at length in this week's issue of the Commoner and replies to a recent criticism of himself by Senator Mc. ONE OF PETTIS COUNTY'S BEST Carren, of Brooklyn. Bryan says:

"The democratic party is entitled to leaders in sympathy with the voters of the party. Some one has defined a leader as one who is going in the same direction as the people, but a little bit ahead, and surely one can not wisely, courageously and successfully lead who is going in an opposite direction from those whom he leads. The men who fight and die in the trenches are entitled to leaders whose hearts are in the fight and who believe the success of the party will be good for the country.

The democratic party has been very much handicapped for the past twelve years, first, by a lack of newspapers in the eastern states. Few of the large dailies have supported the democratic party, and the large dailies that have supported the ticket have, almost without exception, re pudiated the platform either in the campaign or immediately afterwards. In like manner, many of the men who have been at the head of the organization in the east, have premptly repudiated the platform as soon as the campaign was over, and have between campaigns lent their influence to those who have condemned the democratic position on public ques tions. Most of them have not gone as far as Senator McCarren, and yet their influence has been cast against the party rather than for it. In the face of these continual assaults upon the policy of the party it is astonishing that the party has polled as large a vote as it has. It is evidence of the incorruptibility of the democratic masses that they continue to fight for democratic principles, in spite of the desertion of the party's policies by those who control the organiza-

tion. "A permanent democratic club ought to be organized in every county in the United States—a club committed unqualifiedly not merely to the name, but to the policies of the party. Such a club is needed more in the east than in the west, but there ought to be such a club in every county, even in the west.

"Its members ought to devote themselves to the propagation of democratic doctrine; they to establish in every county a local paper that will preach democratic doctrine all the time, and in every primary contest they ought to labor to put the democratic organization into the hands of those who will make the fight with earnestness and with confidence of a final victory. The democratic party has been a "house divided against itself" and this has been and is its greatest weakness."

ROOSEVELT AND TAFT.

Today the country has a new presi dent. Theodore Roosevelt, having served for seven years, has retired, and is succeeded by William H. Taft, cles of his illustrious predecessor, says the St. Joseph News.

Mr. Rooseelt has rough-hewn the the softer and more delicate methods escape to the continent; but contrary partments of the government hos- as the last word in the submission of that are required in the finishing pro-

It will not be possible for the present generation to fix accurately Mr. Roosevelt's place in his country's history. Washington stood before the men of his time somewhat in the same relation borne by Roosevelt to the men of his time. By many he was loved, by many he was hated, and it is pretty well authenticated that his refusal to be a candidate for the presidency for a third term had its!

The savage onslaughts on him by congress, by public men outside of that body, and by the leaders of the conservative forces of the country, has been bedfast at his home sufferrecall in striking fashion the attacks to which Roosevelt has been subjected. And yet Jackson is in history as one of the greatest of the presidents, and the star of his fame shines more brightly with the receding years.

Lincoln, now the best loved of all the presidents, and everywhere admitted to be one of the greatest characters of all time, it is unnecessary to remark, was the most cordially hated man of his time in the United States. North and south, detractors were everywhere in evidence, and it was not until the great civil conflict had been a generation removed in point of time that he hegan to come into his own. Where Roosevelt will stand in history, as compared with these three great figures, is not and can not be known at this time. It is conceded, however, that he will have a place in that exalted company.

Of sharp corners, Mr. Roosevelt has had many. He would not have been true to his temperament if he had not done most of the things which have called down upon his head so much criticism. But Mr. Rooseveli's faults have been almost wholly temperamental-the outgrowth of an impulsive personal bent which be either could not or would not control. It is not likely that those faults will be remembered by posterity, just as they have not been remembered in the case of Jackson, and posterity will probably assign him a place in the galaxy of America's greatest statesmen because of the principles for which he has stood so faithfully and READY .- LOEWER, TAILOR.

In that connection it is well to remember that to the Roosevelt policies as such the country at large has never made any serious objection. THE INSPIRATION OF EMMET.

Throughout the world patriotic and liberty-loving Irishmen yesterday celebrated the one hundred and thirty-first anniversary of Robert Emmet. Although executed as a traitor and a criminal by the British, no taint or odium attaches to the name of Emmet. From shameful death he sprang to fame and immortality.

Emmet was born in Dublin in 1778, and was a school fellow of the poet Thomas Moore, and his senior by a year at Trinity college, Dublin. Both were members of the Historical society, and the great champions of the popular side.

In 1798 Emmet was expelled from the University on the grounds of bo ing connected with the Association of Threatening weather tonight and United Irishmen. PIERCE RAP AT HADLEY

IT GREW OUT OF THE LATTER'S TRIBUTE TO HONORABLE CHARLES NAGLE.

PIERCE CITES SPEECH IN THE OIL CASE

Says Mr. Nagle Told the Court That the Waters-Pierce People Were Being Tried by Public in Missouri.

St. Louis, Mo., March 5 .- "Governor Hadley is unfortunate in having the habit of making mistakes in his public statements concerning the Missouri oil case," said H. S. Priest, attorney for the Waters-Pierce Oil Co. commenting on the governor's asser-Nagel, choice for the head of the de ! 7th. partment of labor and commerce, was not responsible for the "arrogance" displayed by "Judge Priest and other

Standard Oil attorneys." It was inferred the governor desired to satisfy Mr. Taft regarding Mr. Nagel's relationship with the Stand ard Oil interests, and thereby stand sponsor to the president for Mr. Nagel as a fit member of the cabinet Continuing, Judge Priest said:

"Mr. Nagel is very worthy of the appointment as a member of Mr. Taft's cabinet, but not because of the false pretenses which his friends put forward in his behalf.

"Mr. Nagel is a good lawyer and a good citizen. Neither his reputation as a lawyer nor his character as a citizen was impaired in the slighest degree by his employment by the Standard Oil Co. to represent its interests in the Missouri litigation.

"As I have before stated publicly. Mr. Nagel distinctively represented the Standard Oil interests in the "Washclean" has only been on the Waters-Pierce Oil Co., and Mr. John-Unctively represented the minority, Physicians endorse it and say that or Pierce interests, in the Waters

F. C. HOLLINS A SUICIDE

BUILDER OF ST. LOUIS RAIL-WAYS ENDS LIFE WITH GAS IN NEW YORK.

LIVED UNDER AN ALIAS IN METROPOLIS

Promoter and Family Separated After His Business Troubles a Year Ago-A Forgery Charge Was Not Proved.

New York, March 5.-Frank C Hollins, 57 years old, brother of Hen ry B. Hollins, head of the banking firm of H. B. Hollins & Co., killed himself late Wednesday night or ear ly Thursday morning in a furnished rooming house in West One Hundred and Thirty-eighth street by inhaling gas. Mr. Hollins was a promoter, with an office at 11 Wall street.

Mr. Hollins went to live at the boarding house last December. Until then he had lived in his own home with his wife and three daughters. Mrs. Arthur K. Bourne is one of his daughters. Mr. Bourne is a son of Commodore Frederick G. Bourne, president of the Singer Sewing Machine Co. A maid at the boarding house who took care of Mr. Hollins' room, thought he was a "Mr. Holmes." That was the name he gave there, as she understood it. In 1886 Mr. Hoilins was a director of the Lake Eric and Western Railway Co. He was chairman of the stockholders' com mittee at the reorganization and carried through their plans successfully.

He became connected with several other railroads and built the St. Louis and Chicago and the Litchfield and St. Louis railways. As president of the Central Missour; and Cleveland and the St. Louis and Kansas rall ways he completed them and managed to sell them successfully in 1891,

His most serious business troubles came a year ago, when he was made the defendant in three suits in the supreme court, involving claims against him which aggregated \$1,-041,000. In October, 1908, he was arrested on a charge of perjury brought by Joseph C. Blanch. of the Blanchite Paint Co. Later, Mr. Hollins was freed of the perjury charge.

Judge Hitchcock Rules Adversely to

St. Louis, Mo., March 5.-Judge Hitchcock Thursday afternoon denied the petition of Mrs. Lillian Handlan Lemp's lawyers for a rehearing of her divorce suit against William J. Lemp. He amended the alimony decree so as to make her annuity \$6,000 a year, payable for life, or until she should

In reply to the request of Judge Daniel Dillon that the decree, granted three weeks ago, be made to rest on other grounds than desertion, Judge Hitchcock said: "It ill becomes a former wife to besmirch the character of her divorced husband, the father of her child."

Mrs. Lemp objected to her alimony being in the form of annuity and asked for a lump sum.

NO CLEW TO FUGITIVES

Charged With Murder.

Mexico, Mo., March 5.-The Audrain county court offers a reward of \$200 for the delivery of Luther Anderson into the hands of the sheriff of Audrain county.

A message received from Jefferson City late last afternoon states that Gov. Hadley has also authorized a reward of \$200 for Anderson's apprehension and arrest.

A telephone message from Sheriff Geo. E. Earnest, of Montgomery county, disproves the rumor heard here this morning to the effect that Anderson and his pal had been seen in the country near Montgomery. Sheriff Earnest says that no trace of the escaped prisoners has been found.

PUBLIC CAR FOR ROOSEVELT

No Special Arrangements for the Ex-President's Trip Home.

Oyster Bay, N. Y., March 5.-Theodore Roosevelt, free from all official cares, is in his own home on Sagamore Hill, three miles from this village. At the end of the 10-hour journey the ex-president appeared somewhat weary, but he was in the best of spirits. The long trip from Washington was delayed more than three hours between that city and Philadelphia by the storm.

Mr. Roosevelt's special train left Long Island City at 12:28 o'clock this morning and as he was more than three hours behind the schedule time, he did not expect that his neighbors in Oyster Bay would remain up to greet him at the homecoming as they had expected to do. He was agreeably disappointed, therefore, when his train reached Oyster Bay, to find the station brilliantly illuminated with electric bulbs and Japanese lanterns, while a big illuminated banner bade him "Welcome Home."

Better than all this was a crowd of from 200 to 300 of his neighbors on hand, whom neither the lateness of the hour, the cold wind nor the snow covered roads could deter from waiting to greet their fellow townsman. The ex-president stayed in the station fifteen minutes to exchange handclasps with friends. The village band

TO REVISE THE STATUTES

Committee of Six Will Spend Sixty Days at the Task.

Jefferson City, March 5 .- Former Representative F. B. Oliver, of Cape Girardeau. Attorney John Harrison, of Fulton: former Assistant Attorney General N. T. Gentry of Columbia; former Se nator T. R. Ely, of Kenneth; Attorney John C. Brown, Fredericktown, and A. L. Shortridge, of Sedalia, are the six men who will revise the general statutes of Missouri.

Under the terms of a joint and concurrent resolution, the legislature is authorized to pay the West Publish. ing Co. of St. Paul, Minn., \$25,000 for certain scrapbooks and compilations and a staff of expert revisers, these to be attributes to a commission of six Missouri lawyers who are to take the statute books and revise the laws. Nominally the work is to be done by the legislature. Actually, it will be done by the six men named, aided by the St. Paul concern.

It is expected that the commission will be engaged sixty days, but that it will do in that time what the legislature would require six months to accomplish.

The first mamed three were the hoice of the senate. The last three were named by the house. Gentry Brown and Shortridge are republi cans. The senate drafted every one of its commissioners, they being the unanimous choice of the revision committee of the senate. The house com mittee balloted upon its members.

Unless Present Signs Fail, Dog Days Will Find Congressmen Sweltering Over the New Tariff Schedules.

Washington, March 5.-The grim gray dawn of the morning after, found the national capital almost as quiet, if not so deserted, as a haunted cemetery at midnight during the dark of the moon. Pallid as ghosts, worn and weary and with not a cheer left in them, hundreds of belated visitors are hurrying to the stations to board trains for home. Washingtonians are sleeping late this morning, business is almost at a standstill, and those whose occupations force them to be up and doing wear the stupid air of those who celebrated over-much on that grand and glorious yesterday that marked the passing of Roosevelt and the arrival of Taft. The decorations of inauguration day look sadly torn and draggled this morning.

Despite the "tired feeling" so prevalent today, there are not a few statesmen who are already considering the future of the new administration and the things to be accomplished by the legislators, and among these the principal topic of conversation is the special session of the new Sixty-first congress which will convene ten days hence. Although a majority of the members of both branches of the national legislature have gone home to rest during the intervening interval, many of the leaders will stay in Washington to discuss with the new president the plans for the special session.

Vague Pains

Backache, Headache

and other pains, all over a woman's body, are often caused by some, not well understood, female disease. No one can tell just where female trouble will

affect you. It acts in a different way on different people. Hence, treating the symptoms gives but little benefit, and the most successful method may be said to be the treatment of the cause—which you may do, by taking Cardui.

What Cardui has done for other women, it ought surely to do for you. Mrs. M. E. Allred, of Hartford,

Wash., writes: "Ever since I was 16 years old, I have suffered from female troubles. I had headache, backache and other troubles, every month. Some two years ago, I began to use Cardui, and since then I have had no backache, my other troubles have stopped, I don't need any medicine, and I am well."

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the Heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing Hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is alone directed to these week and approximately app weak and wasting nerve centers. It builds; it strengthens; it offers real genuine heart help.

If you would have strong Hearts, strong digestion, strengthen these nerves — re-establish them as needed, with

How long it requires an Irishman to become an American is another story. The federal statutes, of course, have their own crude opinions on the subject; but those authorities are apt to cart runs better, but we will keep it be influenced by prosaic fact rather

than by divine instinct. It is told of two steerage passengers whose steamer entered New York on the morning of the glorious Fourth, that one of them, an Englishman, listened a few minutes to the tremendous cannonade and cracker firing that ushered in the dawn of Freedom. At last he turned to his companion and wondered what was the meaning of all

LOOKS FOR SMALLER PAPERS

Lecturer Thinks People Are Getting Tired of Scoop Net.

New Haven, Conn., March 5 .-Schools of journalism, qualifications for newspaper work and newspaper independence were discussed by Hart Lyman in the second Bromley lec-

Mr. Lyman said there never was a better time perhaps than now to begin work on a newspaper. We have been living for a good many years in the age of quantity, but soon a higher value may be put on quality.

He was hopeful that the next notable change in the newspaper world would be a return to smaller papers Every element entering into their composition might cost more than now, excepting the print paper, which would cost less because less of it would be used.

There would come also. Mr. Lyman thought, a clearer perception of what is intrinsically worth printing. If the country is not getting tired of the journaistic scoop net, it ought to be.

of the City Dweller.

"One of the great blessings of living in the country is that we can see the sky and the moon and the stars and the sunset," said a woman at a social gathering in the New Century club the other day, according to the Philadel phia Record. She lives in a beautiful country place in the Chelton hills all the year round. "We have had some wonderful sunsets in the past few weeks," she continued. "I have known friends to spend afternoons in art galleries looking at pictures when they might have been out in the country watching a far more beautiful sky painting by the hand of Nature. Then you who live in the city never see the residents think the country a dreary, minteresting waste in the winter time, but we suburbanites don't consider it that way. stand the English and French Language Than in Any Other City in Land.

Rome, March 5. - Announcement was made today that a great worldwide Roman Catholic congress will be held in Montreal next year. The eucharist sessions will feature the gathering and will attract influential prelates from all over the world.

The congress will probably be held during the month of September and will be divided into two great sections, one deliberating in the English tongue, while the official tongle of the second section will naturally be the French language.

Although, as at London, there will be papers read and speeches made in other tongues, besides English and French, it is understood that the representatives from the Latin states, so-called, will, as much as possible, use the French language.

Montreal, therefore, is particularly Scotten Drug Company. well adapted for such a function, for there are perhaps more people who understand both the English and the French languages here than in any other city of its size in the world.

In making a comparison between the commercial metropolis of Canada and the great city of London, where last year's congress was held, it was

FAIR CO-EDS VOTED OUT

University Trustees Also Refuse to Sanction Dancing.

New York, March 5 .- Champions of the fair co-eds pleaded in vain before the trustees of Wesleyan university and it is officially announced that the proposal to make the institution a co-

educational one has been voted down. The meeting was held behind closed doors, and, besides the full board of trustees, there were a number of ministers present. The final decision of the board was that no girls shall be admitted to the college after the end of the present year, which means that the last girl will leave the col

lege in 1914. The decision of the trustees las resulted in a movement for the establishment of a separate Methodist college for girls at Middletown. The trustees also failed to approve of dancing by the students in the handsome new gymnasium for which priv ilege a petition had been filed.

Canadian Officer Poisoned by Weeds - Eczema Developed and Legs Became Scaly - Ankles were Very Sore and Itchy - For Weeks He Could Not Wear Shoes.

FREED FROM ITCHING BY CUTICURA REMEDIES

"I have been successfully cured of dry eczema. I was inspecting the removal of noxious weeds, it being part of my duty, from the edge of a river and was constantly in the dust from the weeds. At night I shook out my trousers and cleansed my limbs, but felt a prickly sensation. I paid no attention to it for two years, but I noticed a scum on my legs like fish scales. I could scrape it off, and yet I did not attend to it until it came to be too itchy and sore and began getting two running sores. My ankles were all sore and scabby and I could not wear shoes. I had to use carpet and felt slippers for weeks. I was then on particular police duty and was compelled to be on duty. I got a cake of the Cuticura Soap and some Cuticura Ointment. In less than ten days I could put on my boots and in less than three weeks, though on duty all the time, I was free from the confounded itching. I tell you frankly that Cuticura saved me from what the doctors called a bad leg. Capt. George P. Bliss, Chief of Police, Morris, Manitoba, Mar. 20, 1907, and Sept. 24, 1908."
